

Session Members Lead by Example: Raising Our Pledges

As of the end of July 2018, our pledge income was under budget by \$51,329. At that time, we had 199 pledges for a total of \$768,813.40 pledged dollars which left us under our goal by \$71,186.60. During the August Session meeting, Marcia challenged Session to take a leadership role in raising our pledges for 2018. A sub-committee was formed and it challenged the Session to very quickly lead the charge with 100% participation from Session members for a total of \$64,030 in new dollars pledged. Session's leadership in meeting the financial needs of this vital and growing congregation takes us into the 2019 Stewardship Pledge Campaign with a clear challenge--we all must stretch and prayerfully consider increasing our pledges to be what and who God is calling this church to be. Session is leading the way. In addition to their additional 2018 pledges, they have pledged to increase their 2019 pledges as well.
